Research Landscape
what is happening around us:

- Growing aspirations for Design
- Growing aspirations for Funding
- Increased pressure to develop policy and procedures for Human Subjects
Research Landscape
what is happening around us:

- 21st Century Institutional Vision & Design Pedagogy
- Research is at the center of our peer institutions future
Advancing research as part of our strategic vision

RESEARCH
Research supports the visions of all departments to invent new realities, imagine new interfaces for our future, engage in emerging technologies, understand human need and create solutions to the complex social, political and technical challenges of this time.
Recommendations
moving beyond the basics

1. Develop Infrastructure & Support
   - IRB Policy and Procedures
   - Funding acquisition / management
   - Office of Research
Recommendations
moving beyond
the basics

2. Advanced Programming
   - Graduate Programming
   - International Engagement
   - Student Pathways in Research
Recommendations
moving beyond the basics

3. Deep Expertise
   - Knowledge Areas / Spaces for Inquiry
   - Strategic Partnerships
   - Student Pathways in Research
Recommendations
moving beyond the basics

4. Expand Reach and Influence
   - Provide leadership
   - Advance/Support existing faculty experts
   - Raise the ambition and scale of our student and faculty endeavors (infrastructure)
